Forecast for Monday 24 Jun 2024

Weather: Some areas of lower cloud at first, thickest in the west where there could perhaps be the odd spot of drizzle. This cloud lifting through the morning to give a fine and bright day with light winds, warm temperatures and plenty of sunshine. Low cloud perhaps re-forming later in the evening.

Chance of cloud-free hill tops above 800m: 50% at first, improving to 95% by the early afternoon, before becoming 70% again later in the evening.

Low Cloud and visibility: Areas of cloud down to around 200-400m at first, particularly for western parts of the park, but this tending to lift and break during the morning to give fair weather clouds well above summits. Visibility locally poor at height within cloud but generally good through the day. Some patches of cloud down to 400-500m perhaps re-forming later in the evening.

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

High UV index with light winds and warm temperatures, even at height. Adequate water and sun protection is highly recommended. Pollen levels are also very high.

Forecast for Tuesday 25 Jun 2024

Weather: Areas of low cloud are possible on Tuesday, especially early and late in the day. However, another fine, largely dry and warm day is likely with some sunny spells possible during the afternoon.

Maximum wind: Often variable, 10 mph gusting 15mph.

Chance of cloud-free hill tops above 800m: 40% early and later in the day but 80% during the afternoon.

Low Cloud and visibility: Areas of cloud down to around 300-400m mainly early and late in the day, particularly for western parts of the Park. Cloud lifting somewhat for the afternoon, but some lingering on higher summits. Visibility locally very poor at height within cloud but generally good or very good away from cloud.

Temperature: **Valleys:** Plus 12 Celsius, rising to Plus 20 Celsius.
At 800m: Plus 13 Celsius.
Freezing level: Above summits.
